**Department Mission Statement:** *To provide for the health, inspiration and education of the people of California by helping to preserve the state's extraordinary biological diversity, protecting its most valued natural and cultural resources, and creating opportunities for high-quality outdoor recreation.*

## **1.0 Introduction**

The State of California is home to more than 266 state parks that contain the largest and most diverse collection of natural, cultural and recreational resources of any state in the nation. The California Department of Parks and Recreation, (the Department or California State Parks) encompasses nearly 1.3 million acres, including over 280 miles of coastline and over 55% of the world's old growth redwoods. Within these parks are over 5000 facilities and structures, including many historic buildings. These parks protect and preserve an unparalleled collection of culturally and environmentally sensitive structures and habitats. These same parks provide recreational opportunities for more than 99 million visitors each year making the California State Park system the most visited state park system in the nation. The Department is constantly seeking to maintain the balance between these dual and sometimes incompatible roles. With the advent of civil rights laws for people with disabilities, the Department has been faced with an even greater challenge to provide access to all visitors without compromising the resources.

This transition plan will serve as the framework and guide for the removal of barriers to accessibility throughout California State Parks. There are no known precedents for a recreational organization of this size and scope to undertake such a detailed analysis of its programs, services and activities in order to improve opportunities for people with disabilities. This transition plan proposes broad improvements to park facilities in an attempt to increase public service, appeal to an increasingly diverse population and build public awareness of the many benefits of state parks. The Department takes these actions in order to comply with the requirements of law and to validate our commitment to providing high-quality recreational opportunities for all visitors.

### **1.1 Overview**

The Americans with Disabilities Act (ADA) of 1990 provides comprehensive civil rights protections to individuals with disabilities in the areas of employment, public accommodations, state and local government services and telecommunications. Congress emphasized that the ADA seeks to dispel stereotypes and assumptions about disabilities and to assure equality of opportunity, full participation, independent living and economic self-sufficiency for people with disabilities. A primary goal of the ADA is the equal participation of individuals with disabilities in the mainstream of American society.

Title II of the Americans with Disabilities Act covers programs, activities and services of public entities, including the California Department of Parks and Recreation. Under Title II, a public entity may not deny the benefits of its

programs, activities or services to individuals with disabilities because its facilities are inaccessible. Title II of the ADA stipulates that public entities must identify and evaluate all programs, activities and services, and review all policies, practices and procedures that govern administration of the entity's programs, activities and services. To fulfill this requirement, California State Parks prepared a Self-Evaluation Plan in May 2001 and has now prepared this Transition Plan.

## **1.2 Accessibility in California State Parks**

Even before the passage of the ADA, the Department had been working to make its parks and programs accessible to all visitors. Extensive efforts began in the early 1980's when the Department created the Disabled Advisory Committee (DAC) comprised of persons with disabilities, including State Park employees as well as members of the general public, and advocates for accessibility issues. A few years later a special task force including some members of the DAC began an intensive study on access to facilities within the parks.

Input from these groups led to the 1994 production of Access to Parks Guidelines (ATPG), a manual for park staff recommending optimal standards for accessibility within parks. ATPG contains the most stringent standards from the federal and state accessibility regulations. In addition to the standards, accessibility survey questionnaires were included to assist staff to evaluate and design facilities. This manual is considered an evolving document that will provide up-to-date information to park designers and field staff through incorporation of the most current codes. In 1994, the Department also published All Visitors Welcome, a resource manual of interpretive techniques for universal access that is already into its third edition.

In 1995 a Department Statewide Accessibility Coordinator position was established. This position was responsible for oversight of the Department's accessibility program, including the initial department-wide accessibility training programs. In 1999 the Department established an Accessibility Section comprised of a multi-disciplinary work team including individuals with disabilities. The work team includes architects, interpreters, park rangers, maintenance supervisors, program analysts and support staff recruited from throughout the Department and elsewhere. This team was directed to develop a Self-Evaluation plan (completed in May 2001), a Trail Plan (completed in June 2001) and a Transition Plan. The State Parks Accessibility Section is now a permanent component of the Department and will continue to provide training, oversight and guidance in renovating and constructing facilities and upgrading programs, including the implementation of the Transition Plan.

## **1.3 Overview of Required Codes and Guidelines Used**

In Access to Parks Guidelines, the Department developed accessibility standards for State Parks based on the most stringent Federal and State of California codes that apply to the built environment. These standards were also the basis of the surveys used to identify barriers within State Parks. The source codes and guidelines include the following:

- Uniform Federal Access Standards (UFAS)
- American with Disabilities Act Access Guidelines (ADAAG)
- California Code of Regulations (CCR) Title 24
- California Historical Building Code (CHBC)

While these codes and guidelines assist in barrier removal from the built environment, supplemental accessibility regulations for the outdoor environment are still under development by the Federal Access Board's Regulatory Negotiation Committee. Outdoor guidelines for developed areas such as campsites, trails, beaches, picnic areas and other settings are undergoing the rule making process. Similarly, the National Center for Accessibility at Indiana University compiled an executive report on swimming facility accessibility for the Federal Access Board that provided some recommendations. For the purpose of the Department's surveys and this Transition Plan, the following proposed guidelines and recommendations have been used to identify barriers in the outdoor environment

- Outdoor Developed Area Guidelines, Federal Access Board Regulatory Negotiation Committee
- Recreation Facilities Guidelines, Federal Access Board
- Swimming Executive Report (SER), National Center for Accessibility

#### **1.4 Requirements for the Transition Plan**

The ADA sets specific requirements for the preparation of an acceptable Transition Plan. At a minimum, the elements of the plan should include:

1. Identification of the physical barriers to access throughout the Department's programs, services and activities.
2. Establishment of a plan for barrier removal, including costs and timelines, necessary to ensure programmatic access to all of the Department's programs, services and activities.

## 1.5 Physical and Programmatic Access

People with disabilities have a right to seek out camping, picnicking and other recreational opportunities with the same expectation to participate as those without disabilities. Under Title II of the ADA it is the Department's responsibility to ensure that all services, programs or activities, when viewed in their entirety, are readily accessible to and useable by persons with disabilities. This programmatic access requires that individuals with disabilities be provided an equally effective opportunity to participate in, or benefit from a public entity's programs and services. When choosing a method of providing program access, the Department will give priority to the one resulting in the most integrated setting to encourage interaction among all users, including individuals with disabilities.

The Self-Evaluation document contains the findings of overall program and policy review. It has identified practices and policies that require modification within the five DPR Core Programs: Recreation, Education/Interpretation, Public Safety, Resource Protection and Facilities. In contrast, the Transition Plan focuses on the physical barriers to major recreational activities offered to our visitors. The activities of camping, fishing or picnicking can be identified as individual or sub-programs that are all components of the recreation core program. Museums, exhibit areas and Junior Ranger/Lifeguard programs are part of the Education/Interpretation core program.

The Department has identified 12 major activities/programs that occur throughout state parks. While there are many informal recreational activities that can and do occur within state parks, this Transition Plan will address those major activities supported by an existing infrastructure of facilities and/or services that enhance the given activity. In addition, where other park-sanctioned, regular activities or programs fall under the umbrella of the 12 major ones, the additional park-sanctioned activity will be accessible. For example: where accessible camping is offered, supporting activities that are regularly offered, such as campfire programs or regularly scheduled special programs (i.e. Sunday morning bird-watching) and that enhance or support the camping experience must also be accessible. Throughout this plan, referrals to the 12 major activities or programs may include other activities or programs that meet the above criteria.

To be an accessible component of the State Parks recreation program, park facilities and services supportive of those programs or activities must be accessible. Supporting facilities include, but are not limited to the following elements: the park entrance, parking, path of travel, restrooms, telephones, drinking fountains and signage, where such facilities are provided. Supporting facilities also include amenities provided by the Department's concessionaires operating under contract with the department.

A list of elements that may be part of each of the twelve major park activities follows. These elements will be accessible if provided as part of an accessible activity. All activities/programs listed below will be understood to also include

supporting facilities present such as park entrance, signage, paths of travel, restrooms, parking, drinking fountains and telephones.

**Bicycling:** Bicycle trail, (trailside) exhibits

**Boating:** Pier or dock, (marina) building and services (sales, etc.) and boat slips

**Camping:** Campsite, grills, fire rings, site picnic table, water faucets, trash receptacles, campfire centers, camp store

**Exhibits/Programs:** Parking, building, stairs, ramps, assembly areas, assistive listening systems, AV programs, exhibits, sales areas

**Fishing:** Fishing platforms or piers, benches, fish cleaning stations

**Hiking:** Trail or route, trailside exhibits, benches

**Horseback Riding:** horse trails, mounting platforms and other amenities

**Junior Ranger/Lifeguard Program:** training areas, training materials, activities

**Off Highway Vehicle Use:** OHV trails, trailside exhibits, spectator viewing (assembly) area, mounting platform, picnic areas

**Picnicking:** Picnic tables, stove or grill, water faucets, trash receptacle

**Visitor Center/Museum:** Building, assembly areas, assistive listening systems, AV programs, exhibits, sales areas

**Water Access:** Beach access route, beach wheelchair, outdoor rinsing showers

It must be recognized that the process of making State Park facilities and programs accessible will be an ongoing one, and will incorporate future assessments and additional modifications. The law does not require the Department to take any action that it can demonstrate would result in a fundamental alteration in the nature of its program or activity, would create a hazardous condition or would represent an undue financial and administrative burden. California State Parks recognizes its responsibilities to comply with cultural and natural resource codes and to work cooperatively with other agencies. The Department provides equality of opportunity but does not guarantee equality of results.

## **2.0 Transition Plan Development Process**

The development of the transition plan included a number of activities and processes. Intensive training of accessibility staff was followed by survey development and data collection at the parks. Turning the raw data into a plan of action required assessment of individual park goals and needs, as well as public recommendations. Priorities were developed to try to incorporate accessibility systematically and equitably into park units statewide.

### **2.1 Facilities Assessment Field Surveys**

Preparation to evaluate all 266 State Park facilities for barriers to accessibility began with completion of an extensive training program provided by the Department of Rehabilitation. After training, staff reviewed and revised park facility surveys. The result was a total of 42 revised surveys. The survey questions incorporated accessibility codes discussed in Section 1.3. The surveys evaluated the following facilities: alarms, assistive listening devices, audio-visual programs, bathing facilities, beaches and shores, boating, buildings, campfire centers/assembly areas, camping, curb ramps, dining and banquet areas, doorways, dormitories/hotels/seasonal housing, dressing rooms, drinking fountains, elevators, equestrian, exhibits, exterior routes of travel, fishing, fixed benches, kitchens, lifts, outdoor recreation access routes, parking, picnic areas, portable toilets, ramps, reaches, restrooms, service machines, signage, sinks, site plans, special events, stairs, storage areas/lockers, swimming pools, telephones/enclosures, visitor information/sales area, vista points and work areas. Once the survey process was prepared, field surveyors went to the park units statewide to identify the barriers. The survey process took one year to complete.

Survey results were put into a database application and uploaded into an Internet website. The website permits park staff to view detailed deficiencies and to note changes in status as corrections are made. The data also helped create another web site that provides park accessibility information for the public, including searches for accessible features in parks. Using the database information and input from the administrative districts that manage the park units within the Department, projects were created to describe barriers to be removed from public use areas within individual parks such as campgrounds, visitor centers, marinas, etc. Surveyors met with district management staff and district accessibility coordinators to review the proposed accessibility projects. At these meetings, district staff was given the opportunity to discuss projects and priorities within each district.

## 2.2 Priorities Development

Recognizing that the Department cannot immediately make all facilities accessible, the Accessibility Section developed the following criteria as the basis for prioritizing access improvements at state park units: level of use by the public, number of activities offered, program uniqueness and geographic distribution.

**Level of Use by the Public:** Visitor attendance is a consistent measure of public use for State Park units. Based on statistics from 1999-2000, annual visitation ranges from over 9 million at Old Town San Diego State Historic Park (SHP) to fewer than 2000 at several very small or remote parks. Parks that have high visitation are often within relatively short driving times of highly populated parts of the state. Facilities that receive a high level of use by the public generally have a higher rating.

**Number of Activities Offered:** Parks that offer a wide range of visitor activities provide more experiences for the public. Twelve major recreational and interpretive programs and/or activities offered within the park system have been identified. These are bicycling, boating, camping, exhibits/interpretative programs, fishing, hiking, horseback riding, junior ranger/lifeguard programs, museums and visitor centers, picnicking, water access and off highway vehicle (OHV) use. Included in the 12 major categories are all supporting elements, facilities and regular activities that are part of each park program. Those parks that provided a more diverse range of programs were given a higher priority for access improvements.

**Program Uniqueness:** Some parks offer programs or experiences that are unique to that park only and may not occur in any other location in the state. Visitors with disabilities should have the same opportunity as others to experience that unique feature or activity. Those parks with a unique feature were given a higher priority.

**Geographic Distribution:** The California Division of Tourism divides the state into 12 distinct geographic travel regions. Some travel regions, especially those in the more remote parts of the state, contain a smaller population of residents. Therefore, parks in those regions may have less activities or a lower attendance than some in a more highly populated region, but were given equal priority in the interest of serving residents and visitors in all parts of the state. It is important that programs and park experiences are distributed throughout the state's travel regions in order to ensure maximum access for all.

## 2.3 Description of Priority Levels

Using the criteria described above, all 266 parks were evaluated and given a priority level. These levels indicate the priority and phasing of accessibility

modifications that will be made in each park. There are five levels, which are described below:

**Level 1 Parks:** 37 park units, including OHV units.

Level 1 parks represent just 14% of California State Parks' units, but account for 48% of the total visitation. Thirty percent of projects designated as high priority by field staff are contained within these 37 parks. They are spread geographically across the state, and all are reachable by motorized vehicles. The majority of these parks are within a two-hour drive of seven of the state's major metropolitan centers. These metropolitan centers are from north to south: Redding, Sacramento, San Francisco, Fresno, Bakersfield, Los Angeles and San Diego. All twelve California Division of Tourism travel regions are represented by these 37 parks. The Level 1 parks represent varied park environmental settings. These parks were also chosen due to the number of activities they offer and, in some cases, the uniqueness of programs or experiences available.

These parks will be modified to provide programmatic access. The goal is that every type of facility-supported activity offered at each Level 1 park or each unique experience that is part of that activity is made accessible.

**Level 2 Parks:** 54 park units.

These 54 parks represent 20% of California State Parks' total number of park units, and 24% of total visitation. These parks typically have slightly lower visitation and numbers of activities than Level 1 parks. In some cases, Level 2 parks may duplicate activities or experiences offered at a nearby Level 1 park. In those cases, other criteria such as visitation or unique features may have been deciding factors in assigning the level of the park.

Major activities offered at each of the Level 2 parks are to be made accessible. Facilities that support the major activities and programs such as parking, routes and restrooms will also be made accessible

**Level 3 Parks:** 69 park units.

Representing 26% of California State Parks' total number of park units and 12% of total visitation, Level 3 parks generally have lower visitation statistics than parks in Levels 1 and 2, and/or lower numbers of activities.

At least one primary activity or program, and supporting facilities such as parking, routes and restrooms in all Level 3 parks will be made accessible.

**Level 4 Parks:** 75 park units.

These parks are currently the least visited among State Parks. They represent 4% of the total annual visitation. These park units generally have few or no developed facilities, and the activities offered at these parks are often represented at more developed park units nearby.

Accessibility improvements at Level 4 units will generally include necessary restrooms, parking and routes. Parks that are closed to the public will not be modified at this time.

**Locally Operated (Level 5 Parks):** 31 park units.

These parks are operated by a local entity through an agreement with California State Parks. Modifications for these parks will be addressed by the local operating entity unless included in this plan. (See Section 4.0, Locally Operated and Concession Operated Facilities.)

## **2.4 Public Participation**

Public participation in the planning and preparation of a Self-Evaluation and Transition Plan is vital to the success of these documents. The Department has utilized a variety of processes to involve the public in its planning and decision-making for accessibility.

### **2.4.1 Public Input Surveys**

As part of the California State Parks transition planning process, a statewide outreach to the disabled community was conducted from December 2000 through March 2001.

A questionnaire was developed to identify park use among people with disabilities and needed accessibility improvements. The questionnaire gave respondents the opportunity to evaluate their experiences regarding accessibility in particular parks, and also to make general comments about accessibility improvements in State Parks. The questionnaire was distributed through organizations that serve people with disabilities. A website was specifically created for increased outreach and questionnaire dissemination, and was linked to the California State Parks website.

Survey respondents were given the opportunity to list, in priority order, areas of concern for needed improvement. The improvements recommended covered a gamut of issues. The most frequently expressed were wheelchair access, routes and compliant restroom availability.

Other major areas of interest and improvement included:

- Wheelchair access to trails and beaches
- Accessible parking

- Accessible campsites
- Accessible picnic areas
- Better signage for accessibility

Parks selected as Level 1 and 2 generally parallel those that received a higher number of responses from the survey. Parks in the lower priority levels of the Transition Plan received little or no responses in the surveys.

## **2.4.2 Community Involvement**

Involving individuals with disabilities in the planning process for projects with accessibility components benefits State Parks. Members of the disabled community or those who work with accessibility issues can provide valuable knowledge. In 1995, the Department Administrative Manual, Chapter 14, mandated the creation of District Accessibility Resource Groups (DARG). Each DARG is made up of at least one district representative who is a State Park employee and people with disabilities or their advocates who usually work in the field of accessibility. They meet and offer input during the initial planning stage of a project. Many access modifications are specified by law, but the DARG may provide suggestions or solutions that would be beneficial.

## **3.0 State Travel Regions**

The California Division of Tourism divides the state into 12 distinct geographic travel regions used to promote tourism in its electronic and printed media. These travel regions were developed in the 1980's and were based on California's unique history, geography, topography and regional identities. The California State Parks website and magazine uses the same travel regions to describe its 266 parks. As the traveling public is already familiar with the concept, it is consistent and logical to use these regions as the basis for viewing parks in the Transition Plan.

With the large and diverse number of units in the California State Park System, the Department sought a systematic approach to making parks more accessible statewide within the travel regions. Using the priority levels described in section 2.3, this Transition Plan identifies a process to make parks programs and services accessible.

### **3.1 Twelve Travel Regions**

The twelve distinct travel regions follow the unique environmental settings that make California a rich and diverse state. From the North Coast redwoods to the deserts of Southern California, to the Central Valley and the High Sierra, State Parks provide a wealth of opportunities and experiences for the park visitor. The camping experience at Humboldt Redwoods State Park, among the old growth redwoods offers different recreational opportunities than camping in the vast desert of Anza Borrego State Park. The contrasts and variety throughout the travel regions provided a wide spectrum from which programmatic access could be assessed and compared throughout State Parks. A description of the twelve travel regions and the Level 1 Parks are in Appendix A.

## **4.0 Locally Operated and Concession Operated Facilities**

### **4.1 Locally Operated Park Units**

The Department has 31 park units that are operated by local public agencies or by contracted concessionaires. While these units are Department-owned, the programs, services and facilities are often managed by others. These units have been separately identified as Level 5 parks. Locally operated were also assigned a sub-level based on the criteria used for all other state park units.

For locally operated parks, a procedure was developed to obtain comprehensive Self-Evaluations and Transition Plans. Each of the local operating agencies was contacted to determine if a Transition Plan had been prepared for the unit. If the local agency did not have a Self-Evaluation and Transition Plan on file, park units were surveyed by the Department's Accessibility staff. For some of these units, the Department will be working with the local agencies to facilitate the completion of a Self-Evaluation and Transition Plan.

Over the next several years, the Department will work with its local agencies to ensure the programs provided are brought into compliance with the ADA and provide guidance in the completion of facilities modifications.

Refer to the Department's Self-Evaluation Plan for additional information on locally operated park units.

### **4.2 Concessions**

Concessions operations within State Parks are usually specific programs or services provided by a private business entity. The specific program or service provided is managed by the concessionaire operating within the park unit. A small number of park units are managed entirely by concession. Concession programs and services were included in the facilities' survey process and are incorporated into the Department's Transition Plan. These programs are part of the 12 previously identified major park activities.

All concessionaires have an operating contract with California State Parks. The current concession contract language requires concessionaires to address accessibility issues. The Department will be working with each concessionaire to ensure that all programs and services offered within state parks meet accessibility guidelines. All new and renewed concession contracts will be required to include plans to meet accessibility guidelines as well.

A current listing of state park concessions can be found in Appendix D.

## 5.0 Transition Plan

This Transition Plan for the removal of architectural barriers to program access contains the following information:

- Program Modifications Necessary
- Park Units within each Travel Region
- Priority levels (Levels 1 through 4)
- Secondary priority scheduling (a, b, c)
- Timeline for the completion of park priority levels

The completion of barrier removal projects is under the supervision of the Acquisition and Development Division, California Department of Parks and Recreation. The responsibility for ensuring barrier removal will reside with the Accessibility Program Manager of the California State Department of Parks and Recreation.

### 5.1 Phasing Schedule

Because of the large number of facilities, the Department's proposed schedule for implementation is represented by a phasing plan. Projects will be scheduled systematically, statewide, to ensure equality from region to region. Project scheduling will also be subject to additional review processes including California Environmental Quality Act (CEQA), Public Resources Code Review (Section 5024) and required reviews by external public agencies.

Parks and programs identified as "1" in the priority level will receive the highest priority for modifications scheduling. Some park facilities were further prioritized within the priority levels and are shown as having priority "1a," "1b," "2a," etc. to indicate the preferred order of improvements. Priority will be placed on ensuring that at least one programmatically accessible, high-priority program is available in each travel region during the first phases of scheduling.

The time frame to fully implement the Transition Plan is 14 years. This period includes time for project development, resource reviews and the contract process for the 266 parks addressed in this plan. Barrier removal will proceed according to each park's priority level.

The following table describes the priorities for barrier removals and facilities modifications at California State Park Units. In this schedule each major program is listed, along with each park and its priority level:

<b>Program</b>	<b>Travel Region</b>	<b>Park Unit</b>	<b>Priority Level</b>
<b>Beach/Water Access</b>			
	North Coast		
		Sonoma Coast SB	1 a
		Clear Lake SP	1 b
		MacKerricher SP	2 b

## **5.2 Transition Plan Timeline**

The following timeline illustrates the anticipated completion dates of the various park priority levels, including a schedule for trail modifications.

- Level 1 park projects will have design and development beginning in year 1 with new projects beginning each year through year 7.
- Level 2 park projects will have development beginning in year 7 through year 10.
- Level 3 park projects will be developed beginning in year 10 and continue through year 12.
- Level 4 projects begin approximately during year 12 and continue through 14.

**TRANSITION PLAN TIMELINE**

# **APPENDIX A**

## **Travel Regions**

## **Region 1 – North Coast**

Old growth redwoods, coastal bluffs, secluded coves and wildlife areas characterize the North Coast travel region. The three parks chosen are spread throughout the region and offer a number of varied activities in different environmental settings.

### **Sonoma Coast State Beach**

**Visitation: 2,211,401**

A coastal beach park located in the southern part of the travel region, Sonoma Coast SB is one of the most popular parks serving the recreational needs of the North Bay area. Bodega Head offers a great place for winter whale watching, and at the mouth of the Russian River is a large seal rookery. Ten major activities/programs are offered at this park (See Appendix B).

### **Humboldt Redwoods State Park**

**Visitation: 563,835**

Humboldt Redwoods is a forested park located along the Eel River. Of the redwood parks in the north coast travel region, Humboldt Redwoods is centrally located and a gateway to the renowned Avenue of the Giants corridor. Ten major activities/programs are offered at this park (See Appendix B).

### **Clear Lake State Park**

**Visitation: 84,614**

Clear Lake SP is centrally located in the travel region. The park is along the shore of Clear Lake, the largest freshwater lake in the state. Nine major activities/programs are offered at this park (See Appendix B).

## **Region 2 – Shasta Cascade**

The Shasta Cascade travel region includes sleeping volcanoes, cold water springs, 4000-foot granite spires and a variety of wildlife. The two parks within this travel region offer a variety of activities in two totally different environmental settings.

### **Lake Oroville State Recreation Area**

**Visitation: 506,036**

Lake Oroville is located in the southern end of the travel region. It is home to the largest earthen dam in the world and is the starting place for the State Water Project (The California Aqueduct). Ten major activities/programs are offered at this park (See Appendix B).

### **McArthur-Burney Falls Memorial State Park**

**Visitation: 169,014**

A mountain park located in the north central part of the travel region, McArthur-Burney Falls Memorial is home to a majestic 129-foot

waterfall. The park also offers lake and stream access. Nine major activities/programs are offered at this park (See Appendix B).

### **Region 3 – Gold Country**

The Gold Country travel region allows travelers to learn about and experience gold rush history or to swim and boat at a highly popular lake recreation area. An off highway vehicle park is also an attraction in this region. Many state parks are a short distance from the popular and scenic Highway 49, which winds through the length of this travel region. The three parks in this region offer very different park experiences and between them serve over 2 million visitors a year.

#### **Columbia State Historic Park**

**Visitation: 351,492**

Columbia SHP is located in the southern portion of the travel region. The historically preserved business district gives the visitor the flavor of the Gold Rush era. Three major activities/programs are offered at this unique park (See Appendix B).

#### **Folsom Lake State Recreation Area**

**Visitation: 1,662,456**

Folsom Lake SRA is located in the north central area of the travel region. This popular lake park serves the Sacramento area and has a high visitation rate. Nine major activities/programs are offered at this park (See Appendix B).

#### **Prairie City SVRA**

**Visitation: 88,824**

Prairie City is located in the north central area of the travel region close to Hwy 50 near Sacramento. Prairie City is unique for its major off-road motorcycle events. The park provides off-highway vehicle use, picnicking and OHV spectator events. Two major activities/programs are offered at this park (See Appendix B).

### **Region 4 – High Sierra**

The High Sierra travel region has Giant Sequoias, the world's largest trees, crystal clear mountain lakes and opportunities for winter sports. It is home to one of the most revered ghost towns in gold rush history. This area is sparsely populated, and the parks attract the majority of visitors during the warm summer months. The three parks are located throughout the region and preserve particularly unique features.

#### **Sugar Pine Point State Park**

**Visitation: 82,973**

A mountain park located in the northern end of the travel region, Sugar Pine Point SP is on the shore of Lake Tahoe. It is open year-round while other parks in the area close in winter. The park offers beach areas in the summer and cross-country skiing in the winter in addition to

the historic Ehrman Mansion, one of the earliest West Shore estates on Lake Tahoe. Nine major activities/programs are offered at this park (See Appendix B).

**Calaveras Big Trees State Park**

**Visitation: 169,879**

Calaveras Big Trees SP is located toward the western side of the travel region. The park has a large campground and two protected groves of majestic Giant Sequoia trees. Eight major activities/programs are offered at this park (See Appendix B).

**Bodie State Historic Park**

**Visitation: 205,247**

Bodie SHP is located on the eastern side of the travel region on the eastern slope of the Sierra Nevada Mountains, not far from Mono Lake and Yosemite National Park. Bodie is one of the most notorious gold rush towns in California history and a rare example of a ghost town stabilized in a state of arrested decay. Two major activities/programs are offered at this unique park (See Appendix B).

**Region 5 – San Francisco Bay Area**

This travel region serves the large urban populations of both San Francisco and San Jose, and yet includes wind swept beaches and towering redwoods. The five parks chosen offer visitors a variety of settings, both inland and coastal, including an off highway vehicle park.

**Big Basin Redwoods State Park**

**Visitation: 963,358**

Big Basin Redwoods SP is a forested park located primarily inland in the southern end of the travel region and extends to the coast. It is the oldest park in the California State Park system and protects groves of majestic old growth coastal redwoods. Nine major activities/programs are offered at this park (See Appendix B).

**Mount Tamalpais State Park**

**Visitation: 2,150,619**

Mount Tamalpais SP, located at the northern end of the travel region, is a popular day trip for residents of the San Francisco Bay area. It is home to a historic amphitheater where the popular Mountain Play performances take place. Nine major activities/ programs are offered at this park (See Appendix B).

**Half Moon Bay State Beach**

**Visitation: 861,727**

Half Moon Bay SB is located centrally in the San Francisco travel region and serves both the San Francisco and Santa Cruz areas. Half Moon Bay offers the only state beach campground between San Francisco and Santa Cruz. Ten major activities/programs are offered at this park (See Appendix B).

### **Seacliff State Beach**

**Visitation: 3,479,347**

Seacliff SB has one of the highest visitation rates in the park system due to its popular beachfront campsites and ocean pier. It is located in the Southern part of the travel region, serving the Santa Cruz area. Eight major activities/programs are offered at this park (See Appendix B).

### **Carnegie SVRA**

**Visitation: 110,870**

Carnegie SVRA is located in the eastern central part of the travel region. With 1500 acres of terrain, off road riders from beginners to experts will find a challenge. Three major activities/programs are offered at this park (See Appendix B).

## **Region 6 – Central Coast**

The Central Coast travel region offers a variety of breathtaking settings from coastal redwoods to the world famous Hearst Castle to beautiful sandy beaches. The five parks were chosen because of their diverse environmental settings, off-road opportunities and close proximity to populations within the region.

### **Hearst San Simeon State Historic Monument**

**Visitation: 800,829**

Located on the coast in the central part of the travel region, Hearst San Simeon SHM preserves the home of William Randolph Hearst. Pioneer architect Julia Morgan designed the estate. Visitors may choose from four tours, including one designated accessible tour. Other than Old Town San Diego SHP, this park has the highest visitation of any historic park in the system and attracts visitors from throughout the world. Three major activities/programs are offered at this park (See Appendix B).

### **Pfeiffer Big Sur State Park**

**Visitation: 339,445**

Pfeiffer Big Sur SP is located in the north portion of the travel region, near the coast, and is a very popular camping park. The Big Sur area is world famous for the winding scenic drive and dramatic coastal views along Highway 1. Monterey, Carmel and Santa Cruz are all within a two-hour drive of Pfeiffer Big Sur. Rooms at the Big Sur Lodge are available as well as camping. Seven major activities/programs are offered at this park (See Appendix B).

### **Morro Bay State Park**

**Visitation: 1,128,000**

Morro Bay SP is centrally located in the travel region on the coast between the Hearst San Simeon SHM and Pismo SB. The park's popular Museum of Natural History is perched on a cliff overlooking the bay. Nine activities/programs are offered at this park (See Appendix B).

**Hollister Hills SVRA**

**Visitation: 122,775**

Hollister Hills SVRA is located in the northern end of the travel region within an hour of San Jose and Monterey. OHV enthusiasts enjoy 87 miles of dirt trails, hills and a 4 x 4 vehicle obstacle course. Seven major activities/programs are offered at this park (See Appendix B).

**Oceano Dunes SVRA**

**Visitation: 1,142,689**

Oceano Dunes is located in the south central part of the travel region. This is the only state park to allow vehicles to drive and camp on the 3.5 miles of beach. There are also 1500 acres of challenging sand dunes for OHV use. Seven major activities/programs are offered at this park (See Appendix B).

**Region 7 – Central Valley**

The Central Valley travel region offers numerous recreational opportunities with rivers, lakes and reservoirs. The two parks were chosen because of their locations, varied activities and high visitation.

**San Luis Reservoir State Recreation Area**

**Visitation: 1,132,636**

San Luis Reservoir SRA is centrally located in the travel region and serves the South Bay as well as the Central Valley residents. The park is known for its diverse water activities and has a high rate of visitation. Ten major activities/programs are offered at this park (See Appendix B).

**Brannan Island State Park**

**Visitation: 134,373**

Brannan Island SP is located in the central part of the travel region on the Sacramento-San Joaquin Delta and is one of few river parks in the State Park System. Although on an island, this park is very popular with boaters and is also reachable by motor vehicle via Highway 160. Nine major activities/programs are offered at this park (See Appendix B).

**Region 8 - Los Angeles County**

The Los Angeles County travel region offers extremely diverse natural and cultural opportunities, and contains coastal, historic and desert parks. The four parks were chosen because of their varied environmental settings, off road opportunities and proximity to highly populated areas.

**Saddleback Butte State Park**

**Visitation: 5,862**

A desert park located in the northeast corner of the travel region, Saddleback Butte SP has a unique botanical community and

spectacular views. Five major activities/programs are offered at this park (See Appendix B).

**Will Rogers State Historic Park**

**Visitation: 157,159**

Located toward the south end of the region, Will Rogers SHP was the home of the famous humorist and actor. With its equestrian facility and polo field, the ranch is a good representation of Rogers' life and his love for horses. A Polo club still uses the field on weekends. Five major activities/programs are offered at this park (See Appendix B).

**Leo Carrillo State Park**

**Visitation: 113,235**

Leo Carrillo SP is located at the south end of the region between the two highly populated areas of Ventura and Los Angeles. The park offers diverse experiences from tide pools and beaches to backcountry canyons. Eight major activities/programs are offered at this park (See Appendix B).

**Hungry Valley SVRA**

**Visitation: 229,906**

Hungry Valley SVRA is located in the northwestern corner of the travel region, just off Highway 5. With 19,000 acres and 130 miles of trails, OHV riders can choose between motocross, obstacle course and practice track for 90 cc or less. Primitive camping, a visitor center and ranger-led wildflower tours are offered. Four major activities/programs are available at this park (See Appendix B).

**Region 9 – Orange County**

The Orange County travel region is a beach lover's paradise. The two parks were chosen because of their location in the travel region, their proximity to large urban areas and their high visitation. The two parks serve almost 3.5million visitors annually.

**Doheny State Beach**

**Visitation: 896,005**

Doheny SB is located in the southern part of the travel region and has a very popular beachfront campground, and spectacular surfing. Seven major activities/programs are offered at this park (See Appendix B).

**Bolsa Chica State Beach**

**Visitation: 2,540,560**

Bolsa Chica SB is located in the northern part of the travel region. A paved path along the beach is popular with joggers, skaters and bicyclists. Seven major activities/programs are offered at this park, which is open while under major renovation (See Appendix B).

## **Region 10 - San Diego County**

The San Diego County travel region offers a variety of settings from beaches to mountains to historic parks. Two beach parks one at each end of the travel region provide the typical Southern California beach experience, while another park provides a mountain setting. The fourth park, Old Town San Diego SHP, is the most visited park in the California State Park System.

### **South Carlsbad State Beach**

**Visitation: 1,372,000**

South Carlsbad SB is a highly visited beach park located in the north section of the travel region. Popular campsites are located on the coastal bluffs overlooking the beach. Six major activities/programs are offered at this park (See Appendix B).

### **Silver Strand State Beach**

**Visitation: 469,000**

Silver Strand SB is located in the southern section of the travel region. Its proximity to San Diego makes it a popular day trip destination. Six major activities/programs are offered at this park (See Appendix B).

### **Cuyamaca Rancho State Park**

**Visitation: 551,000**

Cuyamaca Rancho SP is a scenic, mountain park located approximately one hour east of San Diego. Ten major activities/programs are offered at this park (See Appendix B).

### **Old Town San Diego State Historic Park**

**Visitation: 9,068,000**

Old Town San Diego SHP is located within the City of San Diego. Period costumed interpreters of this first European settlement in California are highly popular with young and old. Many of the historic buildings now house restaurants, shops and exhibits. Three major activities/programs are offered at this park (See Appendix B).

## **Region 11 – Inland Empire**

The Inland Empire travel region ranges from a Southern California mountain wilderness to busy recreation areas. The two parks were chosen for their very different environmental settings, varied activities and proximity to highly populated areas.

### **Lake Perris State Recreation Area**

**Visitation: 1,132,636**

Lake Perris SRA is centrally located in the region and serves the large urban areas of San Bernardino, Riverside and Los Angeles. It also houses the Home of the Wind Regional Indian Museum. Eleven major activities/programs are offered at this park (See Appendix B).

**Mount San Jacinto State Park**

**Visitation: 367,715**

Located in the east central part of the travel region, Mount San Jacinto SP offers backpacking and winter sports in addition to more typical park activities. The park is reached from the mountain town of Idyllwild on one side and the famous Palm Springs aerial tramway on the other. Seven major activities/programs are offered at this park (See Appendix B).

**Region 12 - Deserts**

The Desert travel region offers a special solitude for those who seek it. In the springtime after a good rainy season wild flowers abound, drawing visitors from throughout the world. The two parks in this region were chosen because of uniqueness, size, environmental setting and off-road opportunity.

**Anza-Borrego Desert State Park**

**Visitation: 426,007**

Anza-Borrego SP is a desert park located at the southern end of the travel region. It is the largest State Park in the lower 48 states, and the largest desert state park in the United States. Seven major activities/programs are offered at this park (See Appendix B).

**Ocotillo Wells SVRA**

**Visitation: 193,990**

Ocotillo Wells is located in the southern end of the travel region, bordering Anza Borrego Desert SP. OHV enthusiasts have 44,000 acres of undeveloped desert terrain to explore. Free year round primitive camping is also available. Three major activities/programs are offered at this park (See Appendix B).

# **APPENDIX C**

## **Public Input Survey**

**Admiral William Standley State Recreation Area**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	boating and walking around with son.	Walk ways can accomadate wheelchairs or walker throughout the park system would be nice. I also want to express our thanks for the parks being free for disabled people.
2 to 10	overnight	hiking	smooth trails

**Ahjumawi Lava Springs State Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm

**Andrew Molera State Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax	
2 to 10	one day	Hike/camp, birdwatch	Very accessible and only place I know to camp without reservations
2 to 10	overnight	NATURE WALKS ,COOKING FAMILY GAMES CAMP FIRES AND RELAX	BATHROOMS WITH SHOWERS , NATURE WALKS FOR KIDS WITH DISABILITIES

**Angel Island State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
1 to 50	hours	Picnics, hikes.	High cost of the ferry to get there.
1 to 50	overnight	Day hikes, overnight trips to house and camping	Accessible camping close to the water for access to sea kayaks
2 to 10	hours	Picnic, BBQ, hiking	Some kind of hand railings for parts with a slope
2 to 10	hours	Sightseeing with family or friends	

2 to 10	one day	Picnic, hiking, showing visitors around	
2 to 10	one day	Walking (in wheelchair)	Need wheelchair accessible path accessible bathrooms are needed throughout.
2 to 10	overnight	camping and hiking	
2 to 10	overnight	nature walking swimming and just looking at the view.	

**Annadel State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Hiking when smaller and could carry him.	Need wheelchair path at least 1 mile walk.
2 to 10	hours	Path's are not accessible by scooter. Restrooms are not accessible.	Improve Path's with paving or compacting trails and improve restroom access.
over 50	hours	Hiking	

**Ano Nuevo State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax	
2 to 10	hours	Sightseeing	Little wheelchair accessibility
2 to 10	hours	Strolling around, picnicing	Wheelchair fiendly trails, sidewalks, parking and tables for picnicing.
2 to 10	hours	Walking, birding, natural history	None for facility. Need public transportation.
2 to 10	hours	Watch the seals. Bird watch.	More sensativity to communication needs of deaf and hard-of-hearing people.
2 to 10	hours	watching the seals	
2 to 10	one day	Family outing, viewing	No problems
over 50	overnight	sleeping	needs more dirt

**Ano Nuevo State Reserve**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Elephant Seal guided tour	
2 to 10	hours	elephant seal tour	picnic areas need better paths of travel, less steep, and no 4 inch drop offs near the museum
2 to 10	hours	Family	No

2 to 10	hours	hiking trail by escorted tour to see the elephant seals	since i had the opportunity to visit the park unexpectedly ...i did not have a reservation for accessible accommodation down to the beach observation area ...but was told i could use an electric chair on the first half the hike /trail ..then walk the remainder
2 to 10	hours	Sightseeing	Little wheelchair accessibility
2 to 10	hours	Strolling around, picnicing	Wheelchair friendly trails, sidewalks, parking and tables for picnicking
2 to 10	hours	Taking the elephant seal tour	Parking lot access to visitor center
2 to 10	one day	ate	none
2 to 10	one day	Family outing, viewing	No problems

### Antelope Valley California Poppy Reserve

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Checkout the flowers	
2 to 10	hours	Photography, hiking	
2 to 10	hours	Visiting missions, museums, sightseeing.	

### Anza-Borrego Desert State Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
1 to 50	one day	Sightseeing	Excellent accessibility
2 to 10	hours		
2 to 10	hours	CAMPING, PHOTO, FLOWERS, BIRDS	AT HEADQUARTERS, EVEN THE RANGER COULD NOT GET INTO THE BUILDING WHILE USING MY WALKER FOR SUPPORT. AT OUTLYING CAMPGROUNDS THE PORTAPOTTIES ARE IMPOSSIBLE FOR ME TO GET INTO.
2 to 10	hours	dsdfdvf	sddwwdw
2 to 10	hours	Dune Buggies & Dirt Bikes	None
2 to 10	hours	Hiking viewing	
2 to 10	hours	Picnicking	Facilities OK, tables near parking, paths usually ok.
2 to 10	hours	Sightseeing	
2 to 10	overnight	camp hike	

2 to 10	overnight	Hiking, flowers, birds, relax	O.k. for hard of hearing.
2 to 10	overnight	Photography, hiking	
over 50	hours	View of nature, drawing nature, being there	Parking and entrance way

### Armstrong Redwoods State Reserve

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	This is a wonderful and beautiful park, which has a wonderful trail for vision impaired. It is too	I know you do not want to disturb natural surroundings, but I would like access at least to the vision impaired paths, the restrooms and table areas.
1 to 50	hours	Walking trail, picnic	Very accessible facilities & trails! Just on busy weekends (especially holidays) adding additional handicapped parking spots would be wonderful. As many of the disabled people don't have the option of "walking a mile" just to get in...and have to travel
1 to 50	one day	hiking, sightseeing, relaxing	most parks can use more accessible walkways for people in wheelchairs and I don't recall if the bathrooms were accessible but I think they were. Overall, I think this is a very accessible park with the exception of needing more concrete walkways up into the
2 to 10	hours	Drove through and visited beaches	Most areas outside
2 to 10	hours	Hiking	

### Asilomar State Beach and Conference Grounds

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	one day	Conference	
1 to 50	overnight	Conferences and workshops.	Acoustics of meeting rooms. Lighting of meeting rooms. More sensitivity to deaf or hard-of-hearing people when visiting Asilomar.
2 to 10	hours	Day hiking alone or with friend, wildlife watching, relax.	
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails.

2 to 10	overnight	Conference/hiking	non-code complying hotel facilities/inadequate accessible program experiences
2 to 10	overnight	Conferences	I visited most of these before I became confined to a wheelchair - since then I just don't go because of access problems.
2 to 10	overnight	Hiking, photography, conference	None
2 to 10	overnight	Meetings, great walk along shore, Wheel shuttle to main building	The toilet room in the old hall there in general had NO handicap toilet access.
2 to 10	overnight	Meetings, seminars, conferences	More railings on walkways at least on one side. More ramps, more handicap bathrooms (or at least grab bars in regular bath).
over 50	hours	Walking dog, hiking	Better restrooms

### Auburn State Recreation Area

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	one day	Sports, take my children there	
2 to 10	hours	Walking, BBQ, outdoor games	smoother trails, longer & wider trails
over 50	one day	Swimming American River, hiking	Safer trails leading down to the river.

### Austin Creek State Recreation Area

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm

### Azalea State Reserve

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours		

### Bale Grist Mill State Historical Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic	Many picnic tables are hard for short or mobility limited people to sit at.

**Bean Hollow State Beach**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Walking, birding, natural history	None for facility. Need public transportation

**Benbow Lake State Recreation Area**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight		

**Benicia Capitol State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic, quiet, reading, space, tour	

**Benicia State Recreation Area**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Boating, swimming, walking	Sidewalk right down to beach

**Bidwell Mansion State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic, tour	Fine
2 to 10	hours	Toured mansion years ago.	Was there an elevator?

**Big Basin Redwoods State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Hiking, picnics, visitor center	Need more accessible parking, need better access to visitor center.
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
1 to 50	hours	picnic	
1 to 50	hours	Walking the easy access trail. Walking short distances on other relatively level trails.	I cannot walk very far at one time. Often I use up my entire "walking allowance" getting from the parking to the trailhead. Please provide parking closer to the trailheads.
2 to 10	hours		Very limited - but that may be all that is practical.
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax	
2 to 10	hours	Family	No

2 to 10	hours	Picnic, hike	Many picnic tables are hard for short or mobility limited people to sit at.
2 to 10	hours	Picnics, folk music camp, hikes.	Arrange for sign language interpreted evening events by the forest ranger.
2 to 10	hours	Strolling around, picnicking	Wheelchair friendly trails, sidewalks, parking, and tables for picnicking.
2 to 10	hours	Walking, birding, Natural history	None for facility. Need public transportation
2 to 10	hours	walking, viewing nature, beach sunset watching.	Cost of parking, and entrance fee's.
2 to 10	overnight		Bathrooms
2 to 10	overnight	Camping, nature	
2 to 10	overnight	camping/hiking	lack of adequate accessible features/bathrooms
2 to 10	overnight	Scouting	

### **Bodie State Historic Park**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	hours	Walking Bodie Ghost Town and photographing	Must have urinal in car CHEMICALLY TOXIC RESTROOMS.
1 to 50	one day	Tour, hiking, exploring	
2 to 10	hours		
2 to 10	hours	Sight seeing	
2 to 10	hours	SIGHTSEEING, PHOTO, BIRDWATCHING	I USE A 3 WHEELED ELECTRIC SCOOTER AT BODIE...OK. WE HAVE A VAN WITH SCOOTER HOIST; THE LAST 1/3 OF ROAD FROM US395 IS WASHBOARD, SO HARD ON THE VAN THAT WE MAY NOT VISIT AGAIN, THOUGH WE LIKE THE PLACE.
2 to 10	one day	Site seeing	Access is good
2 to 10	one day	Toured the town of Bodie and the cemetery	The road could stand a lot of improvement, of course I was there 10 years ago.

### **Bolsa Chica State Beach**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	hours		
1 to 50	hours	Picnic, Swim, Body Board	

1 to 50	hours	Swimming, sun bathing, relaxing, roller blading	restrooms cleaner, better parking, cleaner beach
1 to 50	one day	Beach activities hot dog and marshmellow roasts.	
1 to 50	one day	Fire pits, hot dog roasts, beach play, walks.	
1 to 50	one day	Hot dog roasts, beach activities	
1 to 50	one day	Swimming, walks, and camping	no problems accessing, sometimes its not as clean as I'd like
1 to 50	one day	Swimming, weenie-roasts	Open later in summer for weenie-roasts
1 to 50	one day	Weenie roasts	
2 to 10	hours	Swimming, picnic	Improve shower water pressure, unisex bathrooms (female assists male), access to fire pits and picnic tables.
2 to 10	one day	Fire pits - hot dog and marshmellow roasts and beach fun.	
over 50	hours		
over 50	one day	swim / surf	more security because of drunks.
over 50	one day	Visit the pier and beach activities	
over 50	overnight	Sunning and camping	Some (non-specific)

### **Bothe-Napa Valley State Park**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
2 to 10	one day	Site-seeing	
2 to 10	overnight	Camping	Yellow jackets, especially at swimming pool area.
2 to 10	overnight	Camping, swimming	We travelled without my daughter, but had she been with us the park would have been o.k. Her chair would have handled the gravelly pad o.k. but a trail that is wheelchair accessible would be nice.
2 to 10	overnight	Hiking, relaxing	Full hookups for RV, larger paved area for wheelchair.

2 to 10 overnight Photography, art, hiking,  
cleaning trails, swimming

have a disease that is turn

### Brannan Island State Recreation Area

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic with cousin	
2 to 10	overnight	Swimming	

### Butano State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Walking, birding, natural history.	None for facility. Need public transportation.

### Calaveras Big Trees State Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Walking the loop	Keep loop trail wheelchair accessible
1 to 50	hours	Walking trails, photography	Must have urinal in car, CHEMICALLY TOXIC RESTROOMS
1 to 50	one day	Picnicking, nature programs, viewing the Stanislaus River, seeing the beautiful Redwoods.	Good improvements made here, but increase campsites.
1 to 50	overnight	Camping, hiking, swimming	
2 to 10	hours		
2 to 10	hours	camping	
2 to 10	hours	Camping, hiking and learning at the park center. Cooking outdoors.	
2 to 10	hours	Driving through and visiting caves.	No adequate disabled access to features available to able bodied. Would like access for scooters.
2 to 10	hours	Picnicking	I visited most of these before I became confined to a wheelchair - since then I just don't go because of access problems
2 to 10	hours	Sequoias, Walking Tour	Large lettered informational signs for sights.

2 to 10	one day	Touring	Need to build more restrooms
2 to 10	one day	Tours	Handicap access
2 to 10	one day	Walking, trails are a bit tight & steep to walk	A main walking trail wide enough for 4 wheel chairs and graded to the point where you are not going up a hill.
2 to 10	overnight	Strolling, photography, bar-b-que	I camped in an accessible site. The layout was good, with concrete access to the bathroom. Having my own key the accessible restroom with a shower was a special treat. I am a wheelchair user (manual). With some maintenance, the major walk through the

**California Citrus State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements

2 to 10	hours	viewing	
2 to 10	hours	Visited exhibits	None
2 to 10	one day	Passing thru	No
2 to 10	one day	Researching California's Historic Railroads, educational activities.	Excelletrn facility; provide accessible outdoor picnic area.
2 to 10	one day	School tours, scouting, family outings	

### Candlestick Point State Recreation Area

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
1 to 50	hours	Picnics (Sunday mornings) walking	Very accessible facilities and trails! Just on busy weekends (especially holidays) adding additional handicapped parking spots would be wonderful. As many of the disabled people don't have the option of "walking a mile" just to get in...and have to tra
1 to 50	one day	Picnic	Handicap access

### Cardiff State Beach

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Lunch or just passing thru	
2 to 10	hours	Picnicking, viewing the ocean	Be sure to have parking near the water - want to see ocean from car and be able to get out in wheelchair; like before latest damage.

2 to 10 hours Walk, lunch facilities

**Carlsbad State Beach**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Hiking	
2 to 10	hours	Lunch or just passing thru	
2 to 10	hours	Walk, Lunch	facilities
2 to 10	hours	Walking, watching the waves	None
2 to 10	hours	Walking, watching the waves.	
2 to 10	overnight	Bike tour stop - shower-cook- sleep	good park - great view of ocean from hiker biker site
over 50	overnight	Sunning and camping	Some (non-specific)

**Carmel River State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax.	
2 to 10	hours	Visiting while on vacation with families.	No access for persons with wheelchairs and scooters, poor restroom access.
2 to 10	overnight	Camping, walking, swimming	None
2 to 10	overnight	hiking, nature program, camped	bathrooms too far apart

**Carnegie State Vehicular Recreation Area**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	motorcycle riding	Need more restrooms and a hose down area

**Carpinteria State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	overnight		
1 to 50	overnight	Beach activities, shopping, hiking	Sites too small and crowded.
2 to 10	hours	Biking, hiking, surf	Trails east of park along ocean past seal rock maps.
2 to 10	hours	Fishing	Bathrooms
2 to 10	hours	Picnics	
2 to 10	hours	Walking	Access signage

2 to 10	hours	Walking on trails in park area and on beach, biking	Roads need work
2 to 10	overnight	Bike tour- Sleep, eat, shower.	park is ok
2 to 10	overnight	Camping, fishing	Need more hook-ups in San Miguel Loop
2 to 10	overnight	Camping, fishing	not bad
2 to 10	overnight	Camping, hiking	
2 to 10	overnight	Camping, hiking, beach walking, fishing	Need more hook-ups in San Miguel Loop
2 to 10	overnight	Camping, hiking, walk beach	Need more hook-ups for motore homes, electric and water.
2 to 10	overnight	Camping, swimming, sightseeing	A few more showers and bathrooms wouldn't hurt. It gets pretty cowded during peak season. Overall, a very nice park. We always enjoy ourselves and will be returning this summer.
2 to 10	overnight	N/A - we had our own group activities.	None
2 to 10	overnight	Picnicking and hiking	Wheelchair access to the beach - larger sites for disabled.
2 to 10	overnight	Picnicking, hiking	Wheelchair access to the beach - larger sites for disabled.
2 to 10	overnight	Use for overnight stays	None
over 50	hours	Sight seeing	
over 50	overnight	Trailer camping, sightseeing, touring surrounding areas.	

### Caspar Headlands State Beach

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic.	Sensativity to the communication needs of deaf and hard-of-hearing persons.
2 to 10	hours	Picnicking	Very little accessibility
2 to 10	hours	Play in the water, look for sea shells	Needs a maintained restroom

### Castaic Lake State Recreation Area

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	I mainly enjoy the scenery and fresh air!	There need to be direct wilderness area public transportation at least on weekends.
2 to 10	one day	Boating, fishing, and camping	Nice

2 to 10	one day	Observe an extreme sporting event	Wheelchair accessible trails
2 to 10	one day	Picnic	
2 to 10	one day	Picnic	
2 to 10	one day	Swimming, picnicking, rest and relaxation	
2 to 10	one day	View, play	More safety
2 to 10	overnight	Camping, hiking	Nature programs need more frequent

### Castle Crag State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic	This park is not accessible but you can't determine that until after you have paid the fee to get in. It was a waste of time and money.
2 to 10	hours	Walking on Pacific Crest Trail for awhile!	ok
2 to 10	hours	Wheel around parking lot and a very short trail accessible to wheelchairs, where one can barely glimpse	It is not accessible. Build trails wheelchairs can go on.
2 to 10	one day	hiking, fishing	
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turn

### Castle Rock State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours		Not accessible, went there when ablebodied.
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax	
2 to 10	hours	Family outing	No access for disabled in wheelchairs or scooters. We like beaches too. Give us access please.
2 to 10	hours	Walking, birding, natural history	None for facility. Need public transportation.
2 to 10	one day	Picnic, hiking, showing visitors around	

**Cayucos State Beach**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Relaxing on beach	Needs wheelchair access.
2 to 10	hours	Walk on pier	No beach wheelchair access
over 50	hours	Alone observing, watching waves and birds.	Boardwalk out closer to water. More benches to rest.

**Central Coast Area**

1 to 50	overnight	hiking, camping	Lack communication, w/ ASL
---------	-----------	-----------------	----------------------------

**China Camp State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Picnics, short walks, visit "museum"	Very accessible facilities & trails! Just on busy weekends (especially holidays) adding additional parking spots would be wonderful. As many of the disabled people don't have the option of "walking a mile" just to get in...and have to travel with medica
2 to 10	overnight	Camping	More bathrooms, railings on stairs, better public transportation so I could go solo

**Chino Hills State Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Hiking

2 to 10	one day	Bar Q	Fine
2 to 10	one day	Hiking and scouting	

**Chumash Painted Cave State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Driving through, stopped, get out move around to see cave.	Roads need work
2 to 10	hours	Look at it	I don't drive, rely on parents
2 to 10	hours	Nature, the painting	None

**Clear Lake State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
2 to 10	hours	Sand, beach, swings, lawn, picnic	

2 to 10 overnight Picnic, BBQ, hike, boating. Sensativity to deaf and hard of hearing persons.

**Columbia State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Walk, observe historical sights, shop, picnic	More (clean) restrooms, handicap placard parking in shade areas, more security, more water (drinking) fountains
1 to 50	hours	Walk, view historical buildings, photography	CHEMICALLY TOXIC RESTROOMS
1 to 50	one day	Shop, listen to the music	More restrooms
1 to 50	one day	Tours, picnic	Handicap access
1 to 50	one day	Walked around town, went to plays, rode bikes around town, went to dinners.	
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails. On beaches, surf chairs.
2 to 10	one day	Picnicking, sightseeing	Lack of access for disabled.
2 to 10	one day	School tours, scouting, family outings	
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turn
over 50	one day	Family activities, picnicking, researching California history	Improve access to day use picnic tables, grills. Increase number of accessible restrooms.
over 50	overnight	Live nearby daughter lives in Columbia	None

**Corona del Mar State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Swimming, evening campfires on beach	There is no wheelchair access to beach.
1 to 50	one day	Sun bathing and site seeing	parking is tough, but understandable
2 to 10	hours	Hiking	
2 to 10	hours	Lunch or just passing thru	
2 to 10	hours	Tidepools	
2 to 10	hours	Tidepools and picnic	
2 to 10	hours	Tidepools, picnic	Need more nature programs

2 to 10	one day	Sit on a towel, play in the water, walk along the water edge with assistance.	
2 to 10	one day	Tidepool viewing, picnicking	Bathroom facilities to far from tidepools
2 to 10	one day	Tidepools	Nature programs re: tidepools
over 50	overnight	Trailer camping, sightseeing, touring surrounding areas.	

### Crystal Cove State Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	one day	Swimming, walking	
2 to 10	hours	Swim	
2 to 10	one day	Walking	Expensive entry

### Cuyamaca Rancho State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	one day	Climbed stonewall peak three times this year, nice trails!	none- great park
2 to 10	one day	Hike, camping or day outing	
2 to 10	one day	hiking	
2 to 10	overnight	Fishing and shopping. Use for overnight stays.	None

### D.L. Bliss State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	hiking, swimming, laying back	None...I totally enjoy this park
over 50	one day	Sailing, picnicing	All o.k.

### Del Norte Coast Redwoods State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Drove through and visited beaches	Most areas outside
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. over 50	overnight	eating, sleeping, walking, talking	need to plant more trees - the old ones are dying and no new ones are being planted
over 50	overnight	eating, sleeping, walking, talking	need to plant more trees - the old ones are dying and no new ones are being planted

### **McArthur-Burney Falls Memorial State Park**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
2 to 10	hours	Camping, fishing, swimming, nature walks	New accessible camp sites very nice.
2 to 10	hours	Go wherever I can, see whatever I can, learn whatever I can.	Keep lateral (side-to-side) slope minimal - preferably 0 (none).
2 to 10	hours	Picnic, hike, wildlife, view scenery	Better trail to falls
2 to 10	hours	Visited with a group	
2 to 10	overnight	Camp, hike	Some paths are too steep.
2 to 10	overnight	Camping, hiking	
2 to 10	overnight	Fishing, Camping	

over 50 one day Pinicing, fishing, walking the falls trail, and walking to the headwaters.

Access to the bottom of the falls has gotten better over the years, but you will have to re-configure the angle of the switchback trail to the bottom of the falls. The degree of downgrade is still too steep for wheelchair users to go back up.

**McConnell State Recreation Area**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	Camping, Nature Studies	Needs paths for wheelchairs
2 to 10	overnight	Camping, nature studies	Needs paths for wheelchairs

**McGrath State Beach**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	Camping	
2 to 10	overnight	Camping, fishing	Had no hookups for R.V. electric or water
2 to 10	overnight	Camping, hiking	Better access to beach
2 to 10	overnight	Camping, hiking	Need hook-ups (does not have any)
2 to 10	overnight	Camping, hiking, beachwalks, fishing	It's a long walk from camp grounds to beach through sand
2 to 10	overnight	WALKS TO THE BEACH, COOKING, CAMP FIRE, FAMILY GAMES	MORE PROGRAMS FOR DISABILITY CHILDREN LIKE NATURE WALKS JUST FOR THEM AND THEIR PARENTS

**Mendocino Headlands State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	overnight	Hiking, camping	
2 to 10	hours	Drove through and visited beaches	Most areas outside
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails
2 to 10	hours	Sight-seeing	OK

**Mendocino Woodlands State Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	Camping, workshops, seminars, hiking, site seeing, bird watching, picnics, nature hikes.	Better lighting in the meeting rooms and dinning rooms. Too dark to see sign language or lip read easily.

**Millerton Lake State Recreation Area**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	one day	Fishing	Handicap fishing area - easy access banks
1 to 50	one day	Swimming, boating, picnic	Lots of improvements have been made to the park over the past year. These include easier access to all restrooms, access to picnic and camping areas, staff concerned about the needs of the disabled community and try to do everything they can to accommodate
1 to 50	overnight	camp, fish, hike, walk-around	bathrooms too far apart - liked the gravel path
2 to 10	hours	boating, picnicing	Restrooms are important to me in that they are clean, sinks and soap dispensers are at adequate height where a person in a wheelchair can use. The park has done well in this area.
2 to 10	hours	I sit in my wheelchair and watch my family have fun.	No paved paths, rocks and grass.
2 to 10	hours	Picnic	Needed improvement at that time.
2 to 10	one day	Picnic, boating, fishing	
2 to 10	one day	Spring picnic, walking, sun bathing, watched boats and swimmers	Will need to fill out this later. Have not been back since I became disabled. My clients has not reported any difficulties thus far

**Mono Lake Tufa State Reserve**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	hours	site seeing and hiking	a great reserve
1 to 50	one day	Hiking, sight seeing, picknicking, and nature programs	I think that the park is fine in terms of access issues. I think that any future developments, i.e. parking lots, bathrooms, etc., should be made farther away from the fragile tufa and lake life that are already being threatened by exposure and human c
1 to 50	one day	Take tour, visitor center, exploring	
2 to 10	hours		

**Montaña de Oro State Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Picnics, beach walking, whale watching	Risers on steps could be shorter in height.
2 to 10	hours	Hiking	
2 to 10	hours	Walking Picnicing	
2 to 10	overnight	Camping	Flushing toilet
2 to 10	overnight	Walking, going to the beach	More trails, better restrooms
over 50	hours		Not enough wheelchair accessible trails (trail on bluff)
over 50	hours	Observing - birds, marine life, flowers, NATURE. Listening to talks.	Bluff Trail needs more benches closer together - wooden ramp pathway for wheelchair would be nice!
over 50	one day	Picnicking, nature programs, whale watching	Improve parking accessibility and restroom and campsite accessibility

**Montara State Beach**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours		
2 to 10	hours	Hike	Not accessible in most sections for any one with disability.
2 to 10	hours	just enjoying the scenery. an slope flying	LET ME PUT IT PLAIN AN SIMPLE.YOU CAN HAVE HORSES. BUT NO DOGS.TO ME THIS HAS GOT TO BE THE MOST DISCRIMINATORY (CRAP) I HAVE HEARD OF. YOU PREACH KEEPING THE PARKS CLEAN AN SAFE BUT YOU LET HORSES SHIT ALL OVER AN TEAR THE TRAILS UP.BUT YOU WILL GET SIT

**Monterey State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
1 to 50	hours	Walking	Ok
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails.
2 to 10	one day	Hiking	
2 to 10	one day	Once on honeymoon	
2 to 10	overnight	Fishing, camping	None

2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turn
over 50	hours	Walking dog, hiking	Better restrooms

**Monterey State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
2 to 10	hours		
2 to 10	hours	Attend park special activities, education	
2 to 10	hours	Kayaking, museums, sightseeing	access seems to be pretty good
2 to 10	hours	Picnic	Handicap access
2 to 10	hours	Sightseeing	I visited most of these before I became confined to a wheelchair - since then I just don't go because of access problems.
2 to 10	hours	Visiting buildings (educational), walking tour	More bathrooms, better directory, open more hours
2 to 10	one day	Hiking	
over 50	hours	Walking dog, hiking	Better restrooms

**Montgomery Woods State Reserve**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turn

<b>Moonlight State Beach</b>			
<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
2 to 10	hours	Picnicking, viewing the ocean	Want to view ocean from wheelchair; want to be able to rent beach-accessible wheelchair, like some other beaches offer.

<b>Morro Bay State Park</b>			
<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	overnight	Clamming, hiking, shopping, golf	One of our favorite parks
2 to 10	hours		
2 to 10	hours		
2 to 10	hours	Family Outing	
2 to 10	overnight		
2 to 10	overnight	Camped w/RV, around area	
2 to 10	overnight	Camping	Play area
2 to 10	overnight	Camping, cooking, walking	Harder trails (surfaces), hand-held showers
2 to 10	overnight	Picnicking, hiking	Larger sites for disabled. Special reservation, not first come.
2 to 10	overnight	Picnicking, hiking	Larger sites for disabled. Special reservations, not first come first served.
over 50	hours		
over 50	hours	Looking at ocean, beach walking	Risers on steps could be shorter in height

<b>Morro Strand State Beach</b>			
<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	one day	Visit with family	No accessible bathrooms/facilities have been remodeled within the last 5 years. No access to beach.
2 to 10	hours	Family Outing	
2 to 10	hours	Looking at ocean, beach walking	Risers on steps could be shorter in height
2 to 10	overnight	Camped w/RV, walked around area	
2 to 10	overnight	CAMPING, BIRDING, WALKING	GENERALLY SPEAKING A VERY GOOD PARK FOR HANDICAPPED

2 to 10	overnight	Camping, nature	Cramped spaces, restrooms too far, restrooms were filthy!! Also, no reservation for disabled spots or adjoining spaces.
over 50	hours	Alone observing, watching waves and birds.	Boardwalk out closer to water, more benches to rest.
over 50	overnight	Camping, Relaxing on the dunes.	
over 50	overnight	Camping, Relaxing on the dunes.	

### **Moss Landing State Beach**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	hours	Picnic and rest area for quiet time.	
2 to 10	hours		Restrooms which allow male/female
2 to 10	hours	Drove through areas and visited beaches	Most ares outside
2 to 10	hours	Looking, walking in wheelchair.	Hard packed or paved wheelchair trails.
over 50	hours	Walking dog, hiking	Better restrooms

### **Mount Diablo State Park**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	hours	Rocks, hiking	Restrooms which allow male/female
2 to 10	hours	Biking - where I was injured "hit & run"	Limited wheelchair on top - better than nothing - don't know wherelse wheelchair may go.
2 to 10	hours	Great view of the bay, hiking, picnics, nature walks.	Sensativity to the communication needs of deaf and hard of hearing persons.
2 to 10	hours	Hike, picnic	Rock City trails need cables or rails on steep slope. Tables for people with mobility limits.
2 to 10	hours	Hiking, picnic lunches	My husband and I thought it would the perfect place for an afternoon of hiking and a picnic since it's so close to our house (we live in Concord). We were wrong. Once there, we discovered we could not do anything except eat near our pickup. We had
2 to 10	hours	Nature Talk, museum	I already complained about toiler and access to lift.

2 to 10	hours	Strolling around, picnicking	Wheelchair friendly trails, sidewalks, parking and tables for picnicking.
2 to 10	one day	Hiking	Better roads
2 to 10	one day	Hiking, flowers, birds, relax	OK for hard of hearing
2 to 10	overnight	Hiking, camping, exploration, swimming	
over 50	overnight	Picnic, hiking, showing visitors around	

### Mount San Jacinto State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Hiking	
2 to 10	hours	Lunch or just passing thru	
2 to 10	one day	Photography	
over 50	hours	View of nature, drawing nature, being there	Parking and entrance way
over 50	one day	Camp, picnic	Needs re-open Fuller Mill creek campground

### Mount Tamalpais State Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	one day	Hike	Very accessible. Parking can be difficult
2 to 10	hours		
2 to 10	hours		
2 to 10	hours	Drove through areas and visited beaches	Most areas outside
2 to 10	hours	Hiking	Restrooms which allow male/female
2 to 10	hours	Picnic, hiking, sightseeing	Easier access to paths
2 to 10	hours	Walks (Muir Woods), picnics, nature info	Very accessible facilities & trails! Just on busy weekends (especially holidays) adding additional handicapped parking spots would be wonderful. As many of the disabled people don't have the option of "walking a mile" just to get in...and have to trave
2 to 10	hours	Wheelchair/walk, picnic	
2 to 10	one day	Picnic, hiking, showing visitors around	
2 to 10	overnight		Better bathroom
over 50	hours	Sunsets, picnics, sunbathing, swimming	More bathrooms, railings on stairs, better public transportation stops so I could go solo.

**Natural Bridges State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
2 to 10	hours		
2 to 10	hours	Beach play, tide pools, bird watching and monarch butterflies in season	No issues.
2 to 10	hours	Picnic, walking to beach	It seems parts of it was easy to get to.
2 to 10	hours	Strolling around, picnicking	Wheelchair friendly trails, sidewalks, parking, and tables for picnicking.
2 to 10	hours	Watched monarchs	Had to lift over railing to see.
2 to 10	one day	Picnic, hiking, showing visitors around	

**New Brighton State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
1 to 50	one day	Hike, picnic, view wildlife, san activities	Easier access, closer parking, tables
2 to 10	hours	Hiking	Can't get onto beach
2 to 10	overnight	Camping	
2 to 10	overnight	Camping, nature	No reservation for disabled spots or adjoining spaces
2 to 10	overnight	Hiking, flowers, birds, relax	Ok for hard of hearing.

**Oceano Dunes State Vehicular Recreation Area**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Playing on dunes and in surf	
1 to 50	one day	4x4ing in the dunes	It is hard to get around in the sand
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm

over 50 hours If I'm feeling good I can walk. If not I can drive, park and be right on the beach.

### Ocotillo Wells State Vehicular Recreation Area

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Off road touring, picnics	Primitive
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turn

### Old Sacramento State Historic Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Educational and recreational school trips	
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails.
2 to 10	hours	Shopping, dining, night clubs	
2 to 10	hours	Strolling around, picnicking	Wheelchair friendly trails, sidewalks, parking and tables for picnicking.
2 to 10	hours	Walked around	
2 to 10	one day	Enjoyed the out doors just walking around.	More disabled parking.
2 to 10	one day	School tours, scouting, family outings	

### Old Town San Diego State Historic Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Shop, eat	parking
1 to 50	hours	Walking, dining, shopping	More parking spaces needed on weekends
1 to 50	one day	hiking, picnicking	
1 to 50	one day	Sightseeing	Excellent accessibility
2 to 10	hours		
2 to 10	hours	Class activities or shopping and visiting sites	
2 to 10	hours	Education	
2 to 10	hours	Historic sites, meals	Aisle widths

2 to 10	hours	I mainly sat down, had a family picnic	Need community improvement on respect for travelers or visitors to area.
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails.
2 to 10	hours	Lunch or just passing thru	
2 to 10	hours	Picnicking	I visited most of these before I became confined to a wheelchair - since then I just don't go because of access problems.
2 to 10	hours	Seeing history	Very well kept.
2 to 10	hours	shopping, eating	
2 to 10	hours	Usually for dinner.	Better access to parking lots. I have to wheel across grass and dirt.
2 to 10	hours	Visiting missions, museums, sightseeing.	
2 to 10	hours	Walking	
2 to 10	one day	Dining, touring	Town needs more cut curbs
2 to 10	one day	Visited museums and historic building	Certain areas not accessible. Older buildings need accessible entrances.
2 to 10	one day	Walking, lunch, shopping	Cleanliness

### Olompali State Historic Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	None-	a relatively new park with absolutely no accessibility

### Pacifica State Beach

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Bathroom	
2 to 10	hours	Hiking, picnic	A way for a wheelchair user to get to beach
2 to 10	hours	Watch the ocean	
2 to 10	one day	Viewing, family outing	None

### Palomar Mountain State Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	one day	Hiking, picnicking	Expensive entry
2 to 10	hours	Hiking	
2 to 10	hours	Lunch or just passing thru	
2 to 10	hours	Visiting missions, museums, sightseeing.	
2 to 10	one day	Hiking	
2 to 10	overnight	hiking	Needs bathrooms to be cleaner

**Park not identified**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours		There are too few dog acceptable parks that are accessible.
1 to 50	hours	Play, eat	
2 to 10	hours		
2 to 10	hours		
2 to 10	hours	Fishing and camping	
2 to 10	hours	Looking at the sights	That all have TRAILS that are accessible
2 to 10	overnight	Painting, races, radio, campfire	None
over 50	overnight	Sightseeing	Wasn't facing a disability at time of visits. So would have to say unknown.
over 50	hours	Walk	

**Patrick's Point State Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Drive around. Use chair on roads. Paths are not accessible. Even if you can go a short distance o	Accessible paths.
2 to 10	one day	Picnic, whale watching	Lights for safety and evenings, pathways to beaches.
2 to 10	one day	Walks	More bathrooms, railings on stairs, better public transportation so I could go solo
2 to 10	overnight	Camp, play on beach	
2 to 10	overnight	Camping, agate searching on beach, rollerblading, walking the trail	Beach access is a real problem, but that would be hard to fix. The trail would be widened (by the cliff)

**Pescadero State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	picnic	
2 to 10	hours	Picnic, view ocean	Would like access to tidal marsh and stream to fish.
2 to 10	hours	Picnic, walks, wading the water, sun bathing, finding sea weed, shells, and rocks.	Sensativity to the communication needs of deaf and hard of hearing persons.
2 to 10	hours	Picnicking, nature	Not accessible
2 to 10	hours	Strolling around, picnicking	Wheelchair friendly trails, sidewalks, parking, and tables for picnicking.

2 to 10	hours	Walking, birding, natural history.	None for facility. Need public transportation.
2 to 10	one day	Picnic w/ friends, spend day at beach.	Was very difficult to get to beach area. Had to carry teen son as there was no level, safe path.

### **Petaluma Adobe State Historic Park**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
over 50	overnight	Walk, picnic, camp, rest in quiet, observe nature	More water fountains, more benches and tables along routes, more restrooms esp. improved sanitation (usually not clean), more security, more hand rails along route (esp. inclines)

### **Pfeiffer Big Sur State Park**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
1 to 50	hours	My family went camping and visiting for a day	The park could use better access for people in wheelchairs.
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax	
2 to 10	overnight	camped, hike, picnic.	No paths - hiking posed trouble with a cane - roots, rocks.
2 to 10	overnight	Camping	
2 to 10	overnight	Camping	LOVE IT! (need showers)
2 to 10	overnight	Hiking, swimming	My daughter is in a wheelchair, so any trails for her would be great!!
2 to 10	overnight	Wading in river	more guided paths / trails to the river.

### **Picacho State Recreation Area**

<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turn

**Pigeon Point Light Station State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Hiking	Couldn't go into light house. Looked very cramped
2 to 10	hours	Strolling around, picnicking	Wheelchair friendly trails, sidewalks, parking, and tables for picnicking.
2 to 10	hours	Walking, birding, natural history.	None for facility. Need public transportation.
2 to 10	overnight	Site seeing.	More sensitativity to the communication needs of deaf/hard-of-hearing individuals.

**Pio Pico State Historic Park**

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Family	None
2 to 10	hours	Picnic, play in water	None
2 to 10	hours	Picnicking, hiking	Bus/car
2 to 10	hours	Play ball with kids. Have a picnic	None
2 to 10	hours	Sightseeing in water.	Paths on sand - walkways. Beach chairs (ie: wheelchairs with wide wheels)
2 to 10	hours	Spend time with my friend	None

**Pismo State Beach**

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	hours	Playing on dunes and surf	
1 to 50	hours	Walking	
1 to 50	one day	A day outing at the beach, walk on pier, watch fisherman, surfers, hotel guests on Beach Front Inn.	
1 to 50	one day	Relax, sit on beach	More handicap parking
2 to 10	hours		
2 to 10	hours	Dune wheeling, campfire social	Beach wheelchairs were great.
2 to 10	hours	Family Outing	
2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails. On beaches, surf chairs.
2 to 10	hours	Sat on beach	Ramp further down
2 to 10	hours	Walked along beach	
2 to 10	one day	Hiking	
2 to 10	one day	Just relax and enjoy	Afraid to take my chair in the sand
2 to 10	overnight		

2 to 10	overnight	Camped w/RV, walked around area	
2 to 10	overnight	Camping	Light
2 to 10	overnight	Camping, cooking, walking	Harder trails (surfaces), hand-held showers
2 to 10	overnight	Camping, hiking	
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm
2 to 10	overnight	Picnic, camping	restrooms, picnic tables, cleaning
2 to 10	overnight	To camp and 4 wheel	
over 50	hours	Alone observing, watching waves and birds.	Boardwalk out closer to water, more benches to rest.
over 50	one day	fishing, clamming, kicking back on the beacg, relaxing	Need some wheelchair access
over 50	overnight	Trailer camping, sightseeing, touring surrounding areas.	

### Placerita Canyon State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Walk, talk.	

### Plumas-Eureka State Park

Visits	Time Spent	Activities	Suggested Improvements
1 to 50	overnight	Hiking, flowers, birds, relax	OK for hard of hearing
2 to 10	hours	Tour, walking	Fine

### Point Dume State Beach

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Drove through areas and visited beaches	Most areas outside

### Point Lobos State Reserve

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Day hiking alone or with friends, wildlife watching, relax.	
2 to 10	hours	Hiking, sightseeing, photography	None

2 to 10	hours	Looking, walking in wheelchair	Hard packed or paved wheelchair trails. On beaches, surf chairs.
2 to 10	hours	Photography, hiking	Remove poison oak, wider trails
2 to 10	hours	Walked path set on rocks near water	Need a couple of benches along path to sit and rest.
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm

### Point Mugu State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Hiking (day), mountain biking	All ok
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter:"To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm

### Pomponio State Beach

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours	Picnic and view beach	Trail/path access
2 to 10	hours	Walking, birding, natural history.	None for facility. Need public transportation.

### Portola Redwoods State Park

Visits	Time Spent	Activities	Suggested Improvements
2 to 10	hours		
2 to 10	hours	picnic	
2 to 10	hours	Walking, birding, natural history.	None for facility. Need public transportation.
2 to 10	one day	Picnic, hiking, showing visitors around	
2 to 10	one day	Viewing, family outing	
2 to 10	overnight	Camping, hiking	Mosquitos, raccoons!!

<b>Prairie City State Vehicular Recreation Area</b>			
<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter: "To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a desease that is turm
over 50	one day	A day riding the trails and MX track, have lunch.	Very Limited, ADA access especially during Special Events (HANGTOWN). No Showers. Lack of Shade. Lack of Trained Emergency Personel at MX track,practice and some events. No Green Grass, especially the MX track. Look at some of the facilites back East. T

<b>Prairie Creek Redwoods State Park</b>			
<b>Visits</b>	<b>Time Spent</b>	<b>Activities</b>	<b>Suggested Improvements</b>
2 to 10	hours	Walking beach and fern ravine, picnic	ok
2 to 10	hours	walking through the redwoods, birdwatching, general nature study	I don't have any issues for this park. I'm not familiar with all the park's trails, but the park should have at least one trail (but not most trails) that provides access to old-growth redwoods for people in wheel-chairs, providing this can be done with
2 to 10	one day	SIGHTSEEING, PHOTO, BIRDS, SOME CAMPING	PARKS HAVE AN ASSUMPTION THAT PARKING A LONG WAY FROM THE REDWOODS IS GOOD FOR THE SOUL. USING A WALKER WITH BRACED KNEES THAT HURT AT EACH STEP SUGGESTS THAT DISTRIBUTED HANDICAPPED PARKING COULD BE USEFUL. IN THE CAMPGROUNDS, THINGS ARE PRETTY GOOD

2 to 10	overnight	Photography, art, hiking, cleaning trails, swimming	Attached Letter:"To Whom it May Concern, "I am a Viet Nam Vet, ...2 tours, 4 times decorated, and of course disabled. The military gave me 40% disability after my back was broken and 12" harrington rods put in. I also have a disease that is turm
